Customer Agreement & Terms of Service

Oct 11, 2026 · @ST

About this document

This is a template Customer Agreement for **ConnectWave Telecom** (placeholder name), modeled on the structure of major US wireless customer agreements. It is chatbot knowledge, not legal advice: have counsel review it before publishing to customers.

Plain-language summary (what the bot can say first):

- You can cancel anytime on month-to-month service; device balances become due when you cancel.
- You agree to pay all charges, taxes and fees by the due date; late payments carry a fee.
- You have **180 days** from the bill date to dispute a charge.
- We can change prices or terms with at least **30 days' notice**; you can cancel without penalty if a change hurts you.
- Most disputes are resolved by individual arbitration or small-claims court, not a jury trial or class action.

1. The agreement, eligibility & credit

1.1 **Acceptance.** You accept this Agreement by signing, activating service, using service, or paying a bill. It includes your plan terms, the Rate Guide and the Privacy Policy.

1.2 **Eligibility.** The account holder must be at least 18 years old (or the age of majority in their state) and provide valid identification and a US service address.

1.3 **Term.** Service is month-to-month unless a promotion or business contract states a minimum term. A device payment agreement is a separate contract for the device only.

1.4 **Credit check and deposits.** We may check your credit. Based on the result we may require a security deposit, limit the number of lines, or require a down payment on devices. Deposits earn interest only where the law requires it and are returned after 12 months of on-time payments or within 30–60 days after the account closes.

1.5 **Authorized users.** The account owner can name account managers who may make changes. The account owner stays responsible for all charges on every line.

2. Charges, billing & disputes

2.1 **What you pay.** Monthly plan charges (billed one month in advance), usage and add-ons (billed in arrears), device installments, one-time fees, company surcharges, and government taxes and fees.

2.2 **Company surcharges.** Surcharges such as the Administrative and Telco Recovery Charge and Regulatory Charge are set by us, are not taxes, and may change with 30 days' notice. US carriers have faced litigation over how such fees are disclosed, so they must be shown clearly at sale and on every bill (context).

2.3 **Proration.** Partial months are charged or credited by the day.

2.4 **Payment and late fees.** Payment is due by the date on your bill. Late payments incur a fee of the greater of $10 or 5% of the unpaid balance (or the maximum allowed by your state). Returned payments incur a fee of about $25.

2.5 **Suspension for non-payment.** We may suspend service after the due date and notice. Reconnection costs about $20 per line. Accounts over 60–90 days past due may be cancelled and sent to collections.

2.6 **Disputes.** Postpaid customers may dispute a bill within **180 days** of receiving it; prepaid customers within 180 days of the charge. You must pay undisputed amounts while the dispute is reviewed. To preserve your right to arbitration or small claims, give written notice within the 180 days (example agreement wording).

2.7 **Lost or stolen devices.** Report immediately. You are responsible for usage until reported.

3. Using the service

3.1 **Coverage.** Coverage maps are estimates. Service can be affected by terrain, buildings, weather, device type and network load. We do not guarantee service at every location or time.

3.2 **Network management.** To keep the network working for everyone, we may prioritize traffic during congestion. Customers on lower-tier plans and those who exceed their plan's premium data allowance may see slower speeds during congestion. Video may be optimized to standard definition where the plan says so.

3.3 **Acceptable use.** You may not use the service to break the law, send spam or robocalls, resell service, run servers, use the line as a permanent fixed-location internet substitute unless the plan allows it, or disrupt the network. We may suspend or cancel lines that

violate these rules.

3.4 **Devices and unlocking.** Devices must be compatible with our network. Postpaid devices are unlocked automatically 60 days after activation on an account in good standing.

3.5 **911 and emergency services.** Wireless and Wi-Fi calling 911 location may be less precise than landline; keep your emergency address updated for Wi-Fi calling.

3.6 **Your number.** You do not own your phone number, but you may port it to another provider as allowed by law. Protect your account with a PIN; we will never ask for it by unsolicited call or text.

4. Changes, cancellation & device payments

4.1 **Changes by us.** We may change prices, fees, features or these terms. For changes that materially hurt you, we give at least 30 days' notice by bill message, email or text. You may cancel the affected line within 60 days of the change without an early termination fee; device balances still apply.

4.2 **Changes by you.** You can change plans and features at any time; see proration in 2.3.

4.3 **Cancellation by you.** Month-to-month service can be cancelled at any time with no early termination fee. Charges run to the end of the requested day. Activation fees are refunded only if you cancel within the return window (see the Return & Exchange Policy).

4.4 **Cancellation by us.** We may suspend or end service for non-payment, fraud, violating acceptable use, or providing false information.

4.5 **Device payment agreements.** Devices bought on installments are paid over 24 or 36 months at 0% APR. If you cancel the line, transfer the number, or stop paying, the remaining balance is due immediately. Promotional bill credits tied to the device stop when the line is cancelled or the device is paid off early.

4.6 **Leased equipment.** Home internet routers and gateways remain our property. Return them within 30 days of cancellation, or an unreturned-equipment fee applies (for example up to $175 per router).

5. Privacy, liability & dispute resolution

5.1 **Privacy.** We collect and use account, usage and location information as described in our Privacy Policy, including Customer Proprietary Network Information (CPNI), which is protected under federal law. You can opt out of marketing uses at any time.

5.2 **Service credits.** For an outage longer than 24 consecutive hours caused by our network, you may request a prorated credit for the affected days.

5.3 **Limitation of liability.** To the extent allowed by law, our liability is limited to the amount of charges for the affected service during the affected period. We are not liable for indirect, incidental or consequential damages.

5.4 **Informal resolution first.** Before starting arbitration, you agree to send a written Notice of Dispute and give us 60 days to resolve it.

5.5 **Arbitration and class-action waiver.** Disputes not resolved informally are decided by binding individual arbitration (or small-claims court if eligible), not by a judge or jury. Class actions and class arbitrations are not permitted. You may opt out of arbitration within 30 days of accepting this Agreement.

5.6 **Governing law.** Federal law and the law of the state of your service address apply.

5.7 **Entire agreement.** This Agreement, your plan terms and the Rate Guide are the whole agreement. If any part is unenforceable, the rest remains in effect.
