About this rate guide

These are example rates for **ConnectWave Telecom** (placeholder), benchmarked against Verizon's myPlan and home-internet pricing as published in 2026. Replace with your own tariff before launch. All prices are per month, with autopay and paperless billing, before taxes and surcharges.

ICMS mapping. Each plan has a `plan_code`. The bot should answer "what plan am I on?" and "what am I paying?" from the ICMS account record, and use this guide only for general "what plans do you have?" questions. Keep `plan_code` values identical in ICMS and in this document.

Postpaid unlimited phone plans

Three tiers; lines on one account can mix tiers, and the per-line price is set by the total number of lines.

Unlimited Ultimate (`UNL-ULT`)	$90	$80	$65	$55
